

FAST-zero'25 Exhibition offer

**Visibility offered to companies participating to the exhibition
associated with FAST-zero'25**

Introduction

The Laboratory of Accident Mechanisms Analysis of Gustave Eiffel University will organize the eighth edition of the FAST-zero Symposium (International Symposium on Future Active Safety Technology toward Zero-Traffic-Accidents) in association with the JSAE (Society of Automotive Engineers of Japan). FAST-zero'25 will be held in Arles Conference Center (South of France) on 2025 September 23-26.

The biennial conference cycle FAST-zero was created in 2011 at the initiative of Japanese academics and takes place in odd years alternating with the AVEC Conference (International Symposium on Advanced Vehicle Control). This Conference historically brings together around 200 participants and around one hundred papers are presented. The participation of Japanese academics and industrials is significant, even when FAST-zero was held outside Japan. The Conference takes place over 3 days and will be supplemented by technical visits. As the history of FAST-zero Symposia, after the first symposium in Tokyo, FAST-zero was biennially organized in Nagoya (Japan), Gothenburg (Sweden), Nara (Japan), Virginia (USA) and Kanazawa (Japan).

Participating to the exhibition associated with FAST-zero'25 will constitute a good opportunity to increase the awareness of your company, to highlight your products and know-how and to network with the main experts in the international active safety community.

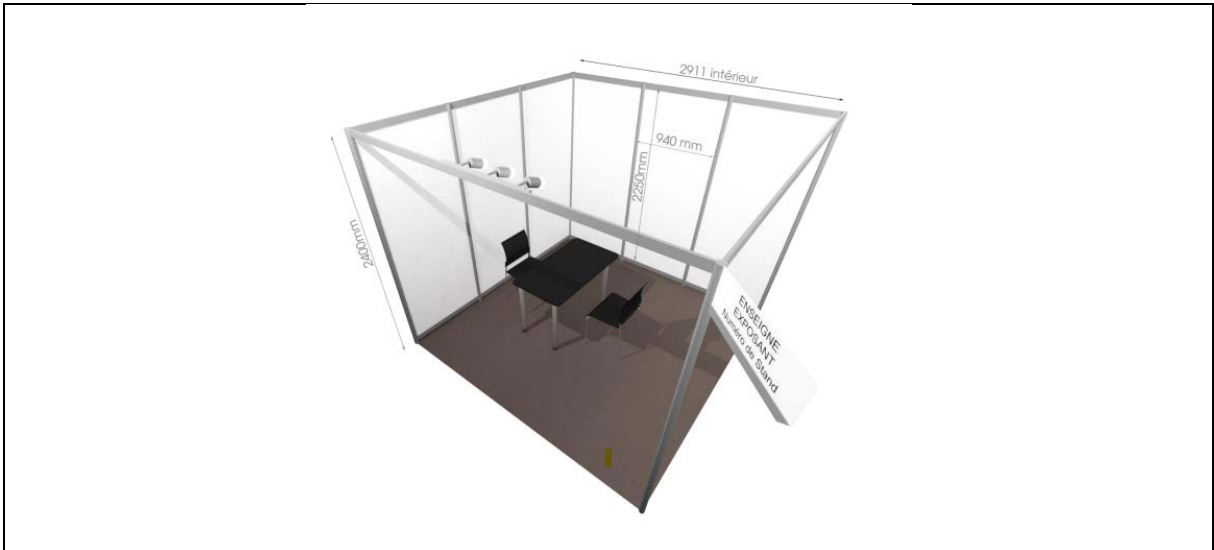

FAST-zero'25 Exhibition offer

The exhibition will take place in a 390 m² room in which all coffee breaks will also be held. Each exhibitor will have a dedicated space identified by distinctive carpet on the floor. If the number of booths is less than 10, they will be placed entirely around the periphery of the room (i.e. along a wall). Beyond 10 booths, we will have to adopt a different arrangement. The images below show 2 views of the room planned for the exhibition:

We offer companies that may be interested in renting a space within the exhibition associated with the FAST-zero'25 International Symposium two types of **open booth** (i.e. without lateral separations between 2 adjoining stands) with a surface area of 5 and 10 m².

The following figure shows the type of **close booth**, with a surface area of 6 m², that we would be likely to offer to companies that do not wish to adopt the open booth format.

The 3 corresponding packages are presented in the following table with the associated "services".

Type of booth	5 m ² open	10 m ² open	6 m ² close
Special recognition on the conference website	Logo, text and link on the dedicated exhibitor page	Logo, text and link on the dedicated exhibitor page	Logo, text and link on the dedicated exhibitor page
Advertising in the book of abstracts given to participants	A4 color page at the end of the book	A4 color page at the end of the book	A4 color page at the end of the book
Video clip broadcasted on the internal network of the Conference Center	20 seconds	30 seconds	20 seconds
Complimentary registrations	2	2	2
Cost in € excl (incl) VAT - without additional furniture	3 600	5 400	4 800
Sponsor + Exhibitor Option Discount on the overall amount	-1 200 for Platinum / Gold sponsor -600 for Silver / Bronze sponsor	-1 200 for Platinum / Gold sponsor -600 for Silver / Bronze sponsor	-1 200 for Platinum / Gold sponsor -600 for Silver / Bronze sponsor

*The figures indicated in the table above include VAT based on a rate of 20 % (as of 7/11/24). Application will be made of the VAT in force on the day the contract with the Sponsoring Company will be established.

NB: The "Special recognition on the conference website" service will be implemented from the signing of the contract until the closure of the website, the other services will be prepared ahead of the symposium, will be subject to validation and will be implemented during the symposium.

The "complimentary registration" gives access to the same services as those offered to the other participants, i.e.

- Attendance at all plenary and technical sessions,
- Symposium proceedings (digital),
- Book of Program and Abstracts (paper),
- Refreshments,
- Welcome Reception (buffet style),
- FAST-zero'25 Party (buffet style),
- Technical visits (tbd).

A reservation of a booth and additional furniture for the exhibition associated with FAST-zero'25 will result in an agreement signed between the Exhibitor Company and Gustave Eiffel University, main organizer of the symposium, to define the conditions of the financial flow

from the Exhibitor to the University. The organizers suggest that interested companies contact us by the end of January 2025, to enter into the contract phase from February 2025.

These packages are standard proposals. We are open to any adaptation according to the wishes of the Exhibitor Company, please contact us at the address:

fast-zero25@sciencesconf.org

How to become a participant to FAST-zero'25 Exhibition

If your company is interested to participate to the Exhibition associated to FAST-zero'25 we propose that you fill the form on the following page, rename the whole file as **FAST-zero25_Exhibition_answer_XXXXX.pdf**, where XXXXX represent the name of your company, and send this document to the address:

fast-zero25@sciencesconf.org

The organizer will come back to you if you mention any query in the form, and will then confirm the options and prepare the corresponding contract which will be submitted to you for validation.

Answer to the offer "Becoming an exhibitor for FAST-zero25"
